
1. GENERATIVE SUBLIMATION
Loosening of existing organization.
New possibilities and perspectives emerge.
2. ADAPTIVE PARTICIPATION
Multiple centers of organization participate.
Diverse experiences and insights are welcomed.
3. TRIANGULATION
Different perspectives are brought together
to create a more complete picture.
4. BEHAVIORAL TESTING
Ideas and hypotheses are tested
in real-world conditions.
5. ADAPTIVE REORGANIZATION
What works is integrated.
New patterns and structures are formed.
6. ADAPTIVE STABILITY
New organization stabilizes.
Function and coherence are strengthened.
7. NEW CONSTRAINTS
Success creates new boundaries
that shape future experience.
BACK TO 1. GENERATIVE SUBLIMATION
New possibilities emerge within new constraints.
The cycle of adaptive evolution continues.
